

ENVIRONMENTAL AND SUSTAINABILITY POLICY

Purpose

Zero Harm to environment, reduction of our impact on the environment and follow sustainable practices in the maritime energy transportation to become a better company in a better world.

Scope

This policy applies to all employees and contractors of the company

Policy Statement

The Company is committed to implement processes and measures that will continually reduce our impact on the environment. Through innovation and collaboration, we commit to be a trusted partner for the businesses and communities we serve, to shape our world and oceans for future generations.

In order to achieve this, we shall:

1. Prevent pollution to the environment and ensure zero spills to sea by evaluating risk in all our operations.
2. Be committed to continued reduction in harmful emission to sea, air and land.
3. Ensure compliance with regulatory, company, local and customer requirements and have zero tolerance to regulatory violations.
4. Educate, train and motivate employees to carry out task in an environmentally responsible manner.
5. Implement technology and design that can improve environmental performance of all vessels and the company.
6. Have a holistic view on energy management and implement energy saving initiatives, devices and operational best practices.
7. Manage environmental risks by identifying and assessing environmental hazards, implementing and monitoring controls.
8. Continuously improve environmental performance by monitoring and review of goals and objectives.
9. Follow sustainable practices to meet our targets in line with the United Nations Sustainable Development goals.
